PROJECTS

Resume Parser using LLM

[github](#)

Python | LLMs | AI | PYDANTIC | pypdf |

Developed an AI-powered HR assistant resume parsing application that extracts structured information from resumes of multiple candidates using Large Language Models and compares each of the resume with the Job Description and scores all the resumes and return the best 2 resumes out of a batch.Extracts key details such as candidate information, education, skills, work experience, and projects from unstructured resume data such as word or document.Focused on converting resume content into structured and usable data for recruitment and candidate analysis workflows.

AI Portfolio – RAG Project

[github](#)

Python | RAG | LLMs | Vector Database | QDRANT | Sentence Transformers

Built an AI-powered portfolio application using **Retrieval-Augmented Generation (RAG)** to provide intelligent responses based on portfolio and project information.Implemented document retrieval and context-aware question answering to improve the relevance and accuracy of LLM-generated responses.Explored practical applications of Generative AI, embeddings, vector search, and Retrieval-Augmented Generation.

Neat & Clean Laundry

[github](#)

React | TypeScript | Web Development | Single Page Routing

Developed and deployed a responsive website for a laundry service to provide an accessible online presence and improve customer interaction.Built a clean and user-friendly interface with responsive design principles.Implemented the frontend using modern web development technologies including React and TypeScript.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python

Web & Frameworks: MongoDB, Express.js, React.js, Node.js (MERN Stack)

AI & Generative AI: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, AI Application Development

Tools & Technologies: Git, GitHub, REST APIs, MongoDB, TypeScript

Bachelor of Technology (B.Tech) – Information Science & Engineering(2026)

CMR Institute of Technology (CMRIT), Bengaluru

CGPA: 8.05

ACHIEVEMENTS

Achieved a **LeetCode rating of 1639** and solved over 500 DSA problems across leetcode gfg.
